

Secure Online Management Portals

REDUCE COST

Our online solution improves the distribution of meeting materials saving you and your company time and money.

SECURE

Our solution is hosted at a SAS 70 Type II certified managed hosting facility. SSL Encryption provides data security for online access.

SUPPORT

Powered by VenuLex. Dedicated Account Managers are available to assist with implementation, assistance and ongoing training. Training is included to ensure your management team is confident and comfortable with your new online management portal.

Distribute Meeting Materials Online

Our online solution improves communication with a **secure, easy-to-use** platform providing instant access to meeting materials.

Save Money and Time

No need to print, assemble and distribute traditional meeting materials. **Simply upload** new information and **last minute changes** to your management portal.

Benefits & Features

- **Easy to Use** - efficient distribution of meeting materials and reports using our intuitive online tools.
- **Savings** - save on time, supplies, printing, assembly and shipping costs. No need to replace updated pages in reports or presentations.
- **Improved Security** - no need to mail or email confidential documents. No need to collect and destroy paper documents after meetings.
- **Centralized Archive** - easily access materials or special reports from past meetings.
- **Company Information** - provide online access to important company documents.
- **Secure Access** - authorized users can access your management portal at anytime, from any location.
- **Telephonic Meetings** - all participants have access to the same up-to-date materials (documents & presentations) regardless of location.
- **Manage Access** - easily create access permissions for specific individuals (i.e., Executive Management, committee members, project teams or outside advisors)
- **Automatic Upgrades** - as a hosted service you automatically receive technology upgrades.
- **Green Initiative** - with less paper waste your company is more environmentally friendly.
